PRODUCT(S)  
**WRAPSHIELD SA® SELF-ADHERED**  
*Water Resistive Vapor Permeable Air Barrier Membrane*  
**VAPROLIQUI-FLASH™ Vapor**  
*Permeable Liquid Applied Flashing*

PROJECT DESCRIPTION  
WrapShield SA Self-Adhered Water Resistive Vapor Permeable Air Barrier Sheet and VaproLiqui-Flash Vapor Permeable Liquid Applied Flashing were used in the conversion of a former supermarket to a new 37,765 sq. ft. Whole Foods Market in Nashua, NH.

Whole Foods Market was constructed with multiple cladding types – clapboard and stone – over WrapShield SA Self-Adhered, which was applied directly to the plywood substrate. WrapShield SA Self-Adhered fully bonds to almost any substrate with its innovative adhesive.

On rough openings and penetrations, windows were flashed with VaproLiqui-Flash, which bonds directly to damp or dry surfaces without primers. VaproLiqui-Flash remains permeable with a waterproof surface and allows same day installation of windows and doors.

Over 10,000 sq. ft. of WrapShield SA Self-Adhered Water Resistive Vapor Permeable Air Barrier Sheet was installed on Whole Foods Market in Nashua, NH.

VaproLiqui-Flash (gray) skins-over in 30 minutes and cures in all weather conditions for fast and easy installation.

WrapShield SA Self-Adhered has multiple substrate compatibility and is tear, rip and puncture resistant during and after construction.
